✓ HIPAA Compliant　　✓ End-to-End Encrypted　　✓ No AI Training on Your Data　　✓ Full Audit Trail

"This would allow us to scale. We wouldn't have to focus so much on our reporting side of things. It would alleviate the hassle of the reporting and let the reports report... just let the people work with people."

— Carly, Director of Reentry Services · Operation New Hope

$30M nonprofit · 400 clients/week · 14 partner organizations · Been looking for this solution for over a year

TESTIMONIAL VIDEO OR PHOTO

Video clip of Carly: from bogged down with data to letting people work with people.

"I am so relieved right now."

1:1 or 4:3 · 800×800 · MP4 (30-60 sec) or JPG

THE PROBLEM NOBODY SOLVES

Your team does the work twice. *Once* with people. Once with *systems.*

16 hrs
per week on documentation that could be automatic

5×
the same information entered into different systems

60%
of organizational knowledge lives in someone's head

20+ hrs
quarterly compiling reports from memory

"CONVERSATIONS IN, EVERYTHING ELSE OUT" VISUAL

Animated diagram: a single conversation icon in the center radiates outward into 6 outputs — Documentation, Reports, Knowledge Base, Tasks, Context, and Insights. Shows the single-input architecture.

16:9 · 1200×675 · Animated SVG or MP4 loop

HOW IT WORKS

Conversations in. Everything else out.

01 · TALK

Your team has conversations

Phone calls, Zoom meetings, standups, support tickets. No internet? Print an attendance sheet, snap a photo. Context and conversation guides surface in real-time.

📱

SCREENSHOT

Incoming call with context card — relationship history, key reminders, conversation guide.

375×300 · PNG

02 · GENERATE

Scrybe handles the rest

Documentation writes itself. Reports compile from real data. Tasks and follow-ups create automatically. Calendar invites schedule themselves.

⚡

SCREENSHOT

Post-call output: auto-generated notes, form data filled, follow-up tasks, calendar invite sent, report updated.

375×300 · PNG

03 · COMPOUND

Your org gets smarter

Every interaction builds the knowledge base. Best practices surface. Goal tracking alerts you when targets are hit. The org's memory never walks out the door.

🧠

SOUND FAMILIAR?

One platform. Every team. Every conversation becomes an output.

Sales   Nonprofits   Healthcare   UX Research   People Managers   Product Teams   Customer Support   **Multi-Location Ops**

Location 7 figured out intake. The other 11 don't know yet.

Regional director overseeing 12 locations. Best practices trapped in one manager's head. **Three weeks just getting everyone to submit data in the same format.**

> ✓ **WITH SCRYBE**
>
> Scrybe captures how every location operates. Surfaces what works: "Location 7's intake is 40% faster." Codifies best practices into playbooks. Reports auto-generate across all locations.

OPERATIONS SCREENSHOT

Multi-location dashboard: 12 pins, performance table, "Location 7 — 40% faster. View playbook →"

THE PLATFORM

Eight engines. One conversation to power them all.

Conversation Capture

Phone calls, Zoom meetings, standups, support tickets — plus paper-based sessions via photo upload.

Auto-Documentation

Notes, case files, SOAP records, intake forms, PRDs, tech specs — generated, not typed.

Conversation Guides

Real-time prompts, reminders, and key details — surfaced during live calls.

Reports & Goal Tracking

Grant reports, KPI dashboards, pipeline reviews. Alerts when you hit targets — even early.

Program & Session Tracking

Multi-session treatments, training programs, client journeys. Completion tracking for compliance.

Knowledge System

Policies, workflows, and SOPs captured from practice. Updates push org-wide instantly.

Workforce Intelligence

Team performance visibility without asking. Training recs from efficiency data.

IRL-to-Digital Capture

No internet? Print attendance sheets, snap a photo. AI logs attendance and generates notes.

WHO IT'S FOR

If your team runs on conversations, Scrybe runs for you.

Sales & Account Management
Nonprofit Case Management
Healthcare & Medical Practices
Behavioral Health
UX Research

Product & Engineering Teams
Customer Support
Legal Services
Real Estate
People Management
Multi-Location Operations

Tax & Financial Advisory
Education & Coaching
